

Dear guest

We create a distinctive cuisine with regional accents from market-fresh and exquisite ingredients. The focus is on the high-quality product from regional suppliers, which is prepared unadulterated and with passion for craftsmanship.

Always with great respect for our own taste, the selected herbs and spices, we prepare all dishes. Look forward to a tasteful balance of home and far.

Our professional service team serves you these culinary delights with a lot of love and recommends the right wine to go with it - whether from the Spiez region or other European provenances.

„Eating is a need, enjoyment is an art.“

Wishing you bonappétit
